STATE OF WASHINGTON
DEPARTMENT OF ECOLOGY
Notice of Application for
State Waste Discharge
Permit No. 5161

Notice is hereby given that Ash Grove Cement West, formerly Land Star Industries, has filed application with the Department of Ecology for a waste discharge permit in accordance with the provisions of Chapter 90A Revised Code of Washington, as amended.

Ash Grove Cement West operates a cement manufacturing plant at 3001 East Marginal Way South in Seattle and proposes to continue discharging truck rinse water and cooling water to ground water and to the Duwamish River via a seepage pond.

On the basis of preliminary staff review, the department proposes to issue a permit to the applicant to discharge to public waters subject to certain effluent limitations and special permit conditions. These proposed determinations are tentative. A final determination will not be made until all comments received pursuant to this notice have been evaluated.

Any person desiring to present views on the application in relation to water pollution considerations pertaining to the project or to be notified of the department's action on this application may do so by writing to:

Washington State
